PLASTIK-TECHNIK

MEDICAL PRODUCTS MADE IN GERMANY

THE RIGHT PARTNER IN EVERY RESPECT

WE ARE SPECIALIZED IN THE PRODUCTION OF PRIMARY PACKAGING SOLUTIONS FOR MEDICAL AND PHARMACEUTICAL PRODUCTS

WE DELIVER

Medical Products – Closures – Dosing Systems – Application Aids

WE PROVIDE

From the concept development to the finished CE-marked medical product. Using the latest technologies, we integrate products and services into customized solutions for our customers and their end users: from development and design, through our own mold and machine construction, to production with warehousing and shipping.

24/7 WE PRODUCE

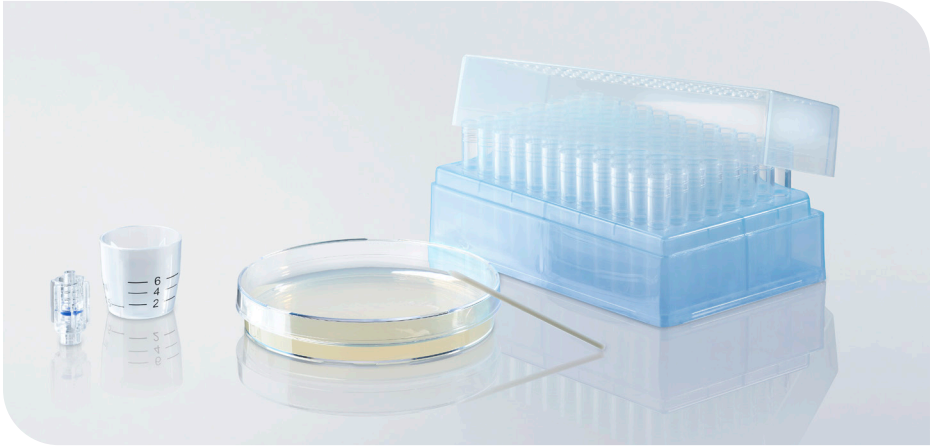

With fully automated production and assembly lines we produce products in large quantities - quickly, cost-optimized and in consistently high quality. Equally, we are able to manufacture small series of complex and technically sophisticated medical products.

WE OFFER

- + Professional Project Management / Regulatory / Registration support
- + Customized Design and Development according to DIN EN ISO 13485 rules
- + DoE-optimization, Material Labs, Risk Analyses and Simulation
- + Inhouse Mold- and Machine Construction, Maintenance and Servicing
- + Fully automated large series production of complex injection molded products
- + Contract manufacturing of medical products
- + Technical support at your plant and After Sales
- + Authorized representative for Medical Devices in UK and CH

WE ARE CERTIFIED
